

Submitter: Larry Read

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Please support HB3932 to help beavers thrive in Oregon. Like wolfs and cougars that have allowed greater protection for the benefit of ecosystem health, so too should beavers. Beavers provide improved stream health in water quality, naturally micro manage surrounding habitat for other species of animals and fish. Over one third of streams and rivers in Oregon need better protection for ecosystem health and beavers need more protection to help contribute.
