

Submitter:	Daniel Cooke
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1153

In October I watched a Chinook salmon in Bear Creek at Central Point. A security gaurd from the nearby mall walked over and watched for a moment. His comment was "That's great but I wouldn't ever eat a fish from that water." It's not enough to weakly conserve some of the wildlife associated with our streams and rivers. We've got to protect our waters and the life in them. Obviously, that must mean halting activities that degrade the water quality. I support SB1153.
