

Submitter: Amy Valentine

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

Beavers help all of us! Beavers help create and maintain wetlands and waterways. They are good for fish habitat and fish are good for Oregon. And they are adorable!! We see them every so often while paddling on the Willamette. Please support HB3932.

Most Sincerely,
Amy D. Valentine
