Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR1

As two retired seniors, my wife and I would appreciate an opportunity to vote on reducing property taxes especially on fixed income individuals. One of our worries as elderly is that the state will price us out of our home that we own and have lived in for the last thirty-five years. The continual increases the in value of our property has little benefit to us because we don't intend to sell it. This is our home and we want to live here in peace. We have paid taxes for many years never receiving equal benefit for the value of our contributions and it has only gotten worse as government swells in size and demands more. A little relief in our declining years would be appreciated.
