

Submitter: Michelle Kropf

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

To whom it may concern,

My family strongly supports this bill. The actions made the last few years to restrict boaters has had nothing to do with the environmental concerns raised. The wealthy water front home owners instead are trying to control the waterways by eliminating the rights of all Oregonians to use the water. Please take action immediately!
