

Submitter: Sarah Morgan

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

I'm am writing in support of HB 3932. There is so much work to be done protecting and restoring our wild lands- luckily we have allies that don't charge a cent and live to do exactly what is needed! The profoundly positive effects of letting the beavers live and do their thing in public lands cannot be overstated. Please allow them to fill their role in our beautiful ecosystems!
