

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

Hunting, fishing, trapping seasons and rules should be set by the fish and game department. They should not be forced upon fish and game by legislature. Biologist and the fish and game department know what's best for the animals. They should be the ones setting seasons and rules. That is why I oppose this bill!!
