

Submitter: Patrick Murphy

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

To Whom it may concern,

It is time to think about ALL of the users of the Newberg Pool, not just the few vocal ones who want the waterway for them selves. Now is the time to restore the Newberg Pool to users of all types. This should include kayaks, canoes, water skiers, wakeboarders, wake surfers jet skis and tubers.

I understand, and even agree with some limits being put on the size of wake that are being generated by some of the boats, however, a few outliers shouldn't prevent the rest of the users from pursuing their passions as well. We all know this bill was snuck in at the last minute by a former House member in an effort to get what he wanted for himself before he was out of office. Now is the time to correct this injustice and abuse of our legislative system. I will be following this bill and will be basing my future ballots for my representative based on this issue.

Sincerely,

Patrick Murphy
