

Submitter:

Deb Landau

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

Our country is at risk and I feel it is imperative to protect all citizens rights to a clean, safe and healthy environment -- regardless of political party or the legal gymnastics of our current administration. It is our fundamental human right to be able to breathe, drink clean water, and protect the lands we live on.

Thank you.
