Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB75

“As a rural Oregonian I oppose SB 75. We did not cause the fires, our government’s lack of proper forest management policies has. Oregonians already pay the high cost every summer with our state burning down around us, we should not be further punished for our governments mistakes.” We pay high taxes to watch our forests burn because you the government can’t seem to manage the funding already in place to manage the forests! You put a stop to loggers putting out fires? Why? On many occasions I have heard testimony from loggers saying they could have had some of these larger fires stopped dead in their tracks but forest service comes and threatens to arrest them if they stop the fire? Makes no sense. Also have watched forest service watch a fire grow out of control why? To me fires are big business for you so you like our forests to burn and blame us for not paying enough taxes! Manage the forests before you come to us taxpayers for more money!

Sincerely,
Jacob Ansures
