

Submitter:

Lisa Maloney

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB749

Please vote NO

As a former elected school board member, this is a very bad idea. It is difficult enough for School Board members and Budget Committee members to go through the multi million dollar budgets of their districts. The Legislators first need to unshackle school districts from the enormous burden of the laws passed in Salem so districts can focus on educating kids that can graduate with math skills so they will be able to even know what a budget is and how to manage their own personal finances!
