Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3422

EFU land has been strongly protected throughout OR for decades preventing many alternate uses that could have benefited local society. Now all of a sudden that protection seems to be thrown out the window. As a taxpayer, and one whose application for EFU rezone was turned down, I strongly object to HB3422 not considering alternatives to destroying EFU lands.

Respectively

L.M. Timmons
