

Submitter: Michelle Casey

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

Please support HB 3932 to pass this bill out of committee. HB 3932 would allow beavers to help restore Oregon's waterways by closing hunting and trapping of beavers on these impaired waterways on public lands. There is robust scientific evidence that shows beaver dam complexes can address most of the water quality issues of concern.

As an Oregonian who is concerned about our climate change and our natural spaces. I kindly urge the committee to pass this bill to allow beavers to help restore Oregon's thousands of miles of impaired waterways for free.

Thank you.
