

# Letter in Support of Oregon Senate Bill 301

To Whom it May Concern,

I am writing to express my strong support for Oregon Senate Bill 301, which addresses crucial safe wake practices for watercraft. As an advocate for responsible boating and environmental conservation, I believe that moving this bill forward is essential for the safety and well-being of both our natural waterways and the individuals who enjoy them.

This bill creates guidelines to make sure boaters are aware of and adhere to safe wake practices. This includes maintaining appropriate speeds, avoiding sudden maneuvers that create large wakes, and respecting designated no-wake zones. By enforcing these regulations, we can protect our environment from erosion and damage, safeguard the lives of individuals engaging in water activities, and foster a culture of responsible boating.

Furthermore, this bill is a critical step towards enhancing public awareness of the importance of safe wake practices. Educational campaigns and outreach initiatives can help inform boaters about the consequences of their actions and encourage them to adopt more conscientious behaviors on the water. By supporting Senate Bill 301, we are not only advocating for stronger regulations but also promoting a broader understanding of the impact of boating practices on our natural resources.

In conclusion, I urge you to support Oregon Senate Bill 301 and advocate for its passage. The adoption of this bill will play a pivotal role in protecting our waterways, ensuring the safety of recreational users, and promoting responsible boating practices. Thank you for your attention to this important matter, and I look forward to your favorable consideration of this bill.

Sincerely,

Gus Morrisson
