

Submitter: Stephen Brigham

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

My name is Stephen and I'm an active user of the Willamette River. I am writing you to express my strong support for Senate Bill 301. The towed water sports community has a very simple and reasonable request with this legislation to be treated equally to all other boat users in the deep waters of the Newberg Pool. I get that boaters need to be respectful of slow zones and narrow channels where there's houses and docs, etc. All boaters simply need to follow the laws of the waterways and if they don't, the officers on the water should write tickets for these certain people that are being very disrespectful, that'll fix all that. No bill needed.
