Measure, Appointment or Topic: HB2403

I strongly oppose HB2403 allowing Wild Life Services to allow killing of wildlife for the convenience of humans bound to be everywhere because why not? Everywhere is ours because we think so. I we kill. The irony of our agencies is that instead of the mandate to protect wild beings, the mandate is to "manage" by killing. No other requirement to consider the importance of the wild life nor their sacred right to live.

What the hell is wrong with us? We are the very worst predators on the earth and there can be no dispute about that, can there?

All the killing; why don't we care? Is it easier to kill than to consider non-lethal methods; more convenient? Or just blood lust because we enjoy the hunt?

I oppose HB2403. Wild Life Services is lying with its language; there are no services, only killing. I am disgusted.
