

Submitter: Donovan Haak

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3932

I strongly oppose HB 3932, trapping in Oregon is a regulated and tightly controlled management tool. These decisions should be left to the wildlife experts at ODFW. And ODFW should be allowed to make decisions based on science, not the emotions of a few people.
