

Submitter: TIMOTHY SHOEPE

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3932

I oppose HB3932 because wildlife management should remain with the trained experts at the ODFW Commission, not legislators.

HB3932 undermines professional wildlife management in Oregon. Let's trust our biologists, not politics.

Please oppose HB3932 to maintain scientifically guided wildlife management in Oregon.
