

Submitter:

George Hutchinson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

SJR 28 proposes an amendment to the Oregon Constitution to establish a fundamental right to a clean, safe and healthy environment. Refers the proposed amendment to the people for their approval or rejection at the next regular general election held throughout this state

I can think of few fundamental rights (life, liberty, freedom of speech) more important to my family than "the fundamental right to a clean, safe and healthy environment." Please make it so that all of Oregon's voters may help establish such a basic right.
