

Submitter: Jeffrey A Cina
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SJR28

Greetings,

I am writing in support of SJR 28-1 Right to a Healthy Environment.

As a scientist and educator, I have studied environmental issues and taught several college-level courses on the Science of Climate Change.

The imperative to address this important issue at every level of government--and in our personal lives as well--is clear. At this stage, the question is not whether climate change will affect our lives and future but how great and how destructive the impact will be.

Please do what you can to make sure that the voters of Oregon are given the opportunity to enshrine the Right to a Healthy Environment in our Constitution.

Doing so will obligate all branches of state and local government take proactive steps to address Climate Change and other environmental issues.

Respectfully,
Jeff Cina
Professor Emeritus of Chemistry and Biochemistry
