On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

I strongly oppose this bill as I have seen the damage that over population of beavers have and will continue to cause. Getting rid of trapping beavers is a direct attack on my rights. It will cause longer delays and cost more money to fix the issues that beavers cause if they are not able to be trapped. Even if government trappers are allowed there are not enough in the state to keep up on the population to help keep them at manageable population.
