Oppose this bill. The main source "a 2022 survey by the Truth Initiative" survey used for the backbone of Cameron's study does not include important information like size of study, how individuals were selected, did users know recycling was the preferred method, etc. It also provides a large broad umbrella which could conflict with brands across state lines or from other mfgs, making rebate or refund impossible. I'm not pro vaping, I'm anti bad bills. Oppose.
