

Submitter: Robert Thompson

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

I oppose, taking the beaver management out of fish and games hands. This is their job. Allow them to do their job. Not someone who is not doing this job everyday. Or bring the stats showing the reason for you wanting to remove the beavers out of the hands of fish and game. Where are your studies justifying this move you want to take.
