Dear Senate Committee on Energy and Environment

My name is Leonid and I am a user of the Newberg pool. I am writing you to express my strong support for Senate Bill 301. It's not fair for us boat owners to not be able to use the Newberg pool because of our boats. We want to enjoy the river how we grew up knowing the Willamette river.

Please support local small businesses and families like mine by passing this small yet meaningful ask.

Respectfully,

Leonid Matveev
