Measure, Appointment or Topic:	HB3932

Beavers, as you know, are a keystone species. We need them everywhere to clean our water, help our fish, and provide lots of marshy area to prevent wildfires. They also help with our alluvial water supplies, which is so important in places like eastern Oregon. Please pass this bill. It is still hard to believe that in this day and age, we are allowing beaver trapping! Really, that time has passed.

As a group based on Faith, we truly believe in the interconnected web of life. Beavers are a huge part of that wonderful web. Please help them.

Thank you for all your work for the people of Oregon.
