

Submitter: BRANDON HERB
On Behalf Of: Local Gun Store Owner
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB696

I oppose this bill!! This bill does nothing change the safety of the public like the bill is stating. Using one of these devices they call rapid fire activators does not make the firearm full auto like the anti gun people want to make you think. You actually can fire a firearm faster but just using your finger rather than these devices. These devices are 100% by definition thru ATF, federal, and state law. you will be making criminals out of many Oregonians.
