

Submitter: Georgia Wier

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

Dear Committee Members:

We need more beavers in our state to do the work needed to restore healthy wetlands and improve ecosystems for other wildlife, for plants, and for us. We must prevent the hunting of beavers on these public lands--our lands. Support HB 3932.

Sincerely
Georgia Wier
