

Submitter: Davie Wiley

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

Chairman Helm and Members of the Committee

Please do not support HB 3932. This bill is unneeded and without any scientific basis.

There currently exists an ODFW Beaver Management Plan prepared by trained and experienced wildlife management professionals of the Department.

HB 3932 is based exclusively on personal unsubstantiated bias. It completely ignores the data, scientific evidence and expert opinion.

Support the sound science-based beaver management provided the ODFW professionals and the Commission approved Oregon Beaver Management Plan.

Please allow HB 3932 to die a quiet death by not passing out of your committee.

Thank you,

Dave Wiley
Sublimity, Oregon
