

Submitter: Tamara Glover

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3932

No on HB3932! This would be devastating to farmers, ranchers and even urban homeowners. Beavers can cause substantial damage not only to property, but also the environment. Banning trapping would cause the population to explode, leading to widespread disease and damage.

No on HB3932.
