

Submitter: Kristarae Allman

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure, Appointment or Topic: HB3835

After reading through the amendments what I am seeing puts an already venerable group in a worse position. Having had family in foster care and seeing what kind of conditions pass as ok and they already are not ok but taking away the child's credibility won't help in these situations. I oppose this amendment.
