

Submitter: David Wall
On Behalf Of: Mr Oregon OPPOSES SB 1178
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB1178
I OPPOSE [SB 1178].

[SB 1178] requires the compulsive purchase of [10%] of electricity generated by an aggregate of Community based renewable energy projects to cities whose populations are [25,000] or more.

There is 'No' discussion as to access and maintenance of existing electrical grid(s).

[SB 1178] guarantees the destruction of high-valued, irreplaceable farmlands to carry out the solar-energy and storage cult.

Community-based energy projects are expensive to operate and maintain.

Oregon 'Voters' (including myself) require more information as to why the solar-energy cults appear to be afforded preferential treatment by the Legislature.

There is 'No' discussion of Natural-gas Cogenerated Power Plants.

David S. Wall

Mr. Oregon Concurs and says, "Solar power is a loser. Ask the Europeans how reliable solar-power is to their ways of life."
