

Submitter: David Simone

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Please pass HB 3932. Water quality is essential to us all and beavers in the environment improve water quality. This bill is NOT about limiting beaver harvest and increasing beaver population. Instead, this bill would enable beavers to access waterways where they need to be and remain long enough to perform their ecosystem functions without getting trapped out. Beaver dams clean the water in streams.
