Measure, Appointment or Topic: HB2403

I am urging you to oppose HB 2403. In rural areas like mine, predator coexistence is beneficial to everyone. Killing coyotes or other large predators is proven to be ineffective as a means of protecting grazing animals, as it destabilizes the natural behaviors that keep the predators able to self-regulate their population. Why give Wildlife Services even more money to kill wildlife? That's neither a service to humans nor wildlife. Please vote NO on HB 2403.
