Measure, Appointment or Topic: HB3422

Chair Lively and Members of the committee

For the record my name is Peter Kenagy, I live and farm near Albany.

I am strongly in support of HB3422.

It is a logical and imminently fair adjustment to our states process for approving large scale solar installations.

It is a common sense step to help ensure that large scale solar is sighted on the least detrimental places in our landscape.

It will greatly benefit future generations and the integrity and beauty of Oregon's landscape .

Please move HB3422 forward with a do pass recommendation.

Thank you for your consideration and service.
