

Submitter: HL H

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

I oppose HB3932 because wildlife management should remain with the trained experts at the ODFW Commission, not legislators.

HB3932 undermines professional wildlife management in Oregon. Let's trust our biologists, not politics.

Please reject HB3932. Decisions about beaver trapping are best left to science, not politics.

HB3932 unnecessarily politicizes wildlife management already effectively handled by ODFW.

I strongly oppose HB3932. Beaver management should remain science-based, not legislatively driven.

HB3932 ignores scientific evidence and expert opinion, jeopardizing responsible wildlife management.

Let's trust the ODFW professionals and reject HB3932, keeping wildlife management non-political

HB3932 is an unnecessary intrusion into expert wildlife management already proven effective.

I oppose HB3932 because the current ODFW Beaver Management Plan already ensures sustainability.

Please oppose HB3932 to maintain scientifically guided wildlife management in Oregon.

HB3932 lacks scientific backing and undermines our trusted ODFW professionals.

Reject HB3932 to protect the integrity of Oregon's professional wildlife management.

Wildlife decisions must be based on sound science. Please oppose HB3932.

HB3932 disregards the scientific expertise and careful management already

established by ODFW.

Oppose HB3932—it's a step backward from science-based wildlife management.

Let's keep wildlife decisions out of politics by opposing HB3932.

HB3932 disrupts proven, sustainable wildlife management practices. Vote NO.

Beaver trapping regulation is effective under current ODFW guidelines. Please reject HB3932.

HB3932 threatens the effectiveness of Oregon's science-based wildlife management. I oppose it.

I urge opposition to HB3932, supporting Oregon's professional and scientific wildlife management approach.

HB3932 unnecessarily complicates wildlife management already expertly handled by the ODFW Commission.

I oppose HB3932 because it bypasses scientific processes essential to effective wildlife management.

Let's maintain evidence-based management by opposing HB3932.

HB3932 undermines expert oversight of Oregon's wildlife resources—please reject it.

I strongly oppose HB3932, which introduces politics into effective wildlife management.

Vote NO on HB3932—let the science-based professionals at ODFW continue managing wildlife.

HB3932 threatens to disrupt proven wildlife management practices. Please oppose.

Beaver management decisions should remain with wildlife professionals. I oppose HB3932.

Reject HB3932 and preserve Oregon's effective, science-driven wildlife management.

I oppose HB3932 to ensure wildlife management stays professional, scientific, and apolitical.

HB3932 is unnecessary and interferes with sustainable practices already in place at ODFW.

Oregon's wildlife deserves better—reject HB3932 and trust our expert wildlife managers.

HB3932 attempts to replace science with politics in wildlife management decisions. Oppose it.

Please reject HB3932. It is a legislative intrusion into effective and professional wildlife management.

Oppose HB3932 to protect Oregon's commitment to science-based wildlife management.

HB3932 adds unnecessary complexity to wildlife management, currently handled effectively by ODFW.

Beaver trapping regulation already ensures ecological sustainability. Reject HB3932.

Vote NO on HB3932—trust science, trust professionals, and keep politics out of wildlife management.

HB3932 undermines careful management already proven effective by ODFW experts. I oppose it.

Preserve Oregon's successful, science-based wildlife strategies by opposing HB3932.
