

Submitter: Terese Scollard
On Behalf Of: SB 1174
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB1174

I am a registered and licensed dietitian in Oregon. Although semi-retired, I continue to be active in my professional organization and in advocating for improvements in malnutrition and nutrition-related activities.

I am supporting SB 1174, which modernizes state law to license all qualified dietetic and nutrition professionals and regulates the practice of medical nutrition therapy as a recognized component of medical care. I would like to request support and approval of SB 1174, please.

Thank you very much for supporting SB 1174
