

Submitter: Micah Dungey

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

This bill would take the decision making out of the hands of the most qualified individuals who are those working for and with the Oregon Department of Fish and Wildlife. I firmly believe as both an outdoorsman and nongovernmental wildlife biologist that the scientifically based North American Model of Wildlife Management has worked for a long time and will continue to work long into the future, so let it do just that by keeping the decision making power in the hands of those most qualified.

In addition similar bills have already been denied by the Oregon Department of Fish and Wildlife Commission three times because of the currently successful Beaver Management Plan that ODFW implements, so again lets allow them to continue doing a good job.
