

Submitter: Marian Drake

On Behalf Of:

Committee: Senate Committee On Health Care

Measure, Appointment or Topic: SB293

I have known since Michael Francke was murdered decades ago, that there have been evidence of corruption in the Oregon prison system. He had discovered corruption in a massive scale, and many of us believe that is why he was murdered -- so that he could not present his evidence. Nothing has been reported since his murder about whether these corruptions have been corrected. I hope this bill will clean up the prison system and benefit the inmates and workers alike.
