I am a high schooler in Eugene. I support this amendment because I want clean air so that my cells can keep breaking down glucose to produce ATP, and so that the younger generations can experience the wonders of the outdoors with out getting lung problems from polluted air and water. There is absolutely NO good reason to deny anyone the right to a good life. In the Declaration of Independence, our founding fathers wrote, "We hold these truths to be self-evident, that...(everybody is) endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness." Although it is not a law, if our country was created upon these ideals, then we should uphold them to a modern standard. If the bill is not passed then you are failing to uphold our rights, the rights that America was founded upon.
