

Submitter: Kathy Casson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I'd like to submit my strong opposition to SB 301. The wake-board boats erode the shore, disrupt the ecosystem and the boats and their operators have endangered other users. I have a friend who with others were thrown overboard due to the operation of a wakeboard boat very close to the dragon boat they were in. Older and blind paddlers lost personal belongings like phone and hearing aids, and were endangered. Please do not weaken the limited protection the paddlers and ecosystem have from these boats.

Thanks for your consideration.

Kathy Casson
