

Submitter:

Avery Lutter

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

Just think about it. Would you want to live in a world where everywhere you look there is trash on the ground and the sky's are Grey with smog? Would you like to live someplace where the world just keeps getting hotter and the capacity for life is shrinking? Or would you like to live in a world where the streets are clean, free of trash. A clean world. I don't see how anyone could oppose this. If everyone has a right to a clean environment, nobody loses. Everyone could benefit from a clean and safe environment.
