

Submitter: Lisa Cohns

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

Senate Committee on Energy and Environment,

I am opposed to SB301 and its amendment.

Since the passage of previous legislation that set a reasonable weight limit, more users have been able to recreate in the Newberg Pool safely.

Many more kayakers can use the river now, including myself, without fear of getting capsized by the very large wakes that these boats produce.

Keep the existing legislation, it is working.

Sincerely,

Lisa Cohns
