

Submitter: Sisk Kent

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

To the committee on Energy and Environment

Opposition to SB301

Please do not allow the amendment of SB1589.

Removing the ballast weight from the requirement allows wake boats that are specifically built to create large wakes, even when they don't use ballast.

That's why they are called "wake" boats, it's the hull design as well that helps them make large wakes when they are towing.

Removing the ballast weight doesn't mean these boats won't make large wakes anyway.

Please keep the regulations in place to protect the riverbanks and other users.

-Kent
