Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR1

This is not only very helpful to seniors living on fixed incomes, as property taxes in Oregon are already near the highest in the nation, but it will be a BIG boost to draw other seniors to want to move to Oregon, as many are now looking for states that give them some type of tax relief. With so many people leaving Oregon because of the woke agenda being pushed down their throats, Oregon needs all the help it can get, or you will end up with a state and no one supporting it.
