

Submitter:	Candy Yow
On Behalf Of:	Yow's Hunting Camps
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB3932

Thank you for this opportunity to speak on HB 3932, I would ask you to vote to oppose this bill, As hunters and trappers we have a very good idea the population of species and how they are being managed, I do not see this as a species that needs to populate anymore. They need managed. Hunting & Trapping are life long qualities of life and Oregon has the species to make it successful and fun, we teach trapping at our Youth Hunting Camps, and encourage our youth to carry on our Hunting Heritage.

.Beaver management should remain science-based, not legislatively driven.
Please oppose HB3932 to maintain scientifically guided wildlife management in Oregon.

Thank you for this opportunity, Candy Yow
