

Submitter: Dana Kleinhesselink

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I canoe with my two young children and my husband. We love that the Willamette is a peaceful place for us to enjoy the outdoors. I strongly oppose the SB301-1. SB 1589 is working. It has created safer conditions, and reduced habitat degradation. SB 301 and its amendment represent a step backward that I urge you to reject.
