Re: SJR 28

My name is Twila Jacobsen, I live in Eugene Zip 97405 and am in support of sending this amendment to the Oregon Constitution for a vote by the people of Oregon. Time is of the essence to establish a fundamental right to a clean, safe and healthy environment.

Over 30 years ago I worked with then Senator Sorenson on a bill that would have established the rights of future generations to a clean, safe and healthy environment. As I look at the current and future challenges we face, political, economic and ecological, how I wish that the Rights of Future Generations would have been established. We would be in a much better position to ensure a livable ecosystem for our children and grandchildren, and forward to seven generations.

Thank you for your consideration and please vote to send this Resolution forward.
