

Submitter: Glen McCord

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I am in support of Senate Bill 301 to bring back rights of boaters on the Willamette River. My family and I moved to Renaissance Boat Club in order to recreate freely on the river. Recent legislation has been very impactful to the point that we sold our boat in late 2020 due to restriction on the Willamette. We have since bought another wake boat in 2024 but cannot use it to tow anything. As a Federal waterway which receives Federal funding, statute states that recreation cannot be limited on said waterway. I very much support Senate Bill 301.
