

Submitter: Katherine Rule

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

Dear Legislation

We believe the current regulations are omitting a very high percentage of boat owners from enjoying their favorite activities which include skiing and wakeboarding. The dry weight plus max ballast weight regulating the approved boats is unfair and very restrictive. A dry weight limit is respectfully requested as the ballast weight is not included unless it is utilized. Please consider adjusting the current regulations, thank you Newberg front home owners.

Jacob and Katherine Rule
