David Parker

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SJR28

I am in my 80th year, and I am concerned about the world I am leaving for my grandchildren, their grandchildren, and all future generations. We need a fundamental, enforceable right to a healthy environment, which will prioritize the rights of the people and future generations over short-sighted economic considerations and business as usual. Please give the people a chance to affirm their commitment to clean air and water and a livable world.
